<b>iphone911 Usage Poll</b>	58%	0%	25%	8%	8%	0%	0%
<b>No. of fields</b>	Pre-defined, some add-ons	Unlimited	Unlimited	Unlimited	Unlimited	Unlimited	Predefined
<b>Key Features</b>	Automatically memorize logins on iPhone & Mac, Dropbox support Most "Mac" like UI	Very clean, Intuitive, Uncomplicated Best for those only needing a mobile solution	Tree view Type view List view Endless Categories Limited icon pack	Nice and clean Mac-like UI, VERY basic, simple, yet refined in appearance	Simple layout Least intuitive Good budget option Works with Mac or PC. Has the most potential	Most versatile layout options Multiple views	Decent, but buggy at times. Fewer people want to entrust a cloud for everything
<b>Encryption</b>	AES using Open SSL	256 AES, SQL Cipher, Open SSL	AES & Blowfish	256 AES	256 Blowfish	AES & Blowfish	Not specified
<b>Generate Password</b>	Manual & Auto	Manual & Auto	Manual, & Auto	Manual & Auto	Manual & Auto	Manual & Auto	Manual
<b>Conclusion</b>	Best in Class Regular updates Most Reliable Great service Used most	Great option if you don't need desktop web interactivity... very solid	Good alternative Mac/PC compatible Not as flexible as some Very easy to learn Dependable	For basic needs No complications Affordable	Layout wasn't intuitive, got the job done, but better options	Most hopeful, but most disappointing with sync problems. Needs debug	<i>Least secure since you fully trust the web server to maintain your data</i>
